

Thames Path - Temporary closure of footbridge ahead (April 2018)

Following a recent inspection the Environment Agency has closed the footbridge over the Seacourt Stream for safety reasons. This is due to cracks in the bridge deck which require further investigation and possible repair. As a precautionary measure the bridge is closed until further notice and during this time the Thames Path is diverted. Please follow the diversion route along Oxford Greenbelt Way as shown in the map below. The diversion route (roughly 3 miles or 5km) is a similar distance to following the Thames Path. We apologise for inconvenience caused by this as we work to enable the bridge to be safely reopened.

For further information or to report an incident please call 0800 80 70 60 and ask to speak to a member of Upper Thames Asset Performance Team.
