

# How Consultation results are used to set policies

<b>Resident's comments</b>	<b>Details of issues mentioned</b>	<b>Where incorporated into NP</b>
<p><b>Source</b> – data collected by the Natural and Social Environment sub-group.  <b>NATURAL ENVIRONMENT</b> - relates generally to Baseline Data Category A – Nature Conservation</p>		
<p><b>Rural feel / green space</b>  close proximity of countryside and river, linked by footpaths, encourages a rural feel.  <i>(Local features such as Millennium Wood and Fishponds are much appreciated, especially when maintained)</i></p>	<ul style="list-style-type: none"> <li>- green spaces in developments, ideally a public park.</li> <li>- strong support for more trees.</li> <li>- LED street-lights avoid light pollution.</li> <li>- foot/cycle path links between developments, especially routes to schools.</li> </ul>	<p>ENP4  ENP4.1  ENP8.3  SA Table 5.2.6.  ENP8</p>
<p><b>Encouraging nature</b></p>	<ul style="list-style-type: none"> <li>- need more open spaces, not less</li> <li>- green spaces in developments, possibly a public park.</li> <li>- strong support for more trees</li> <li>- wild flowers rather than grass</li> </ul>	<p>SA Table 5.2.13.  ENP4  ENP4.1</p>
<p><b>Village edges and entrances</b>  create a sense of arrival in village and departure into countryside</p>	<ul style="list-style-type: none"> <li>- important in defining rural feel</li> <li>- allotments and small-holdings will help provide a soft boundary</li> <li>- alternative long-distance routes to Oxford and Witney</li> </ul>	<p>ENP4  ENP4.2  ENP4.4  ENP15.2</p>
<p><b>Walking/cycle access to countryside</b> – you can only appreciate what you can access</p>	<ul style="list-style-type: none"> <li>- links out into countryside</li> </ul>	<p>ENP4, ENP8.7</p>

## This is just one example....

the whole consultation document runs to 14 pages of similar links between resident's comments and either the Sustainability Assessment (SA) or the Neighbourhood Plan Policies (ENP)
