

# Option 1: MINIMAL DEVELOPMENT to WEST

As current planning applications - which we oppose as they do not meet any village requirements.

All new traffic has to go through the village

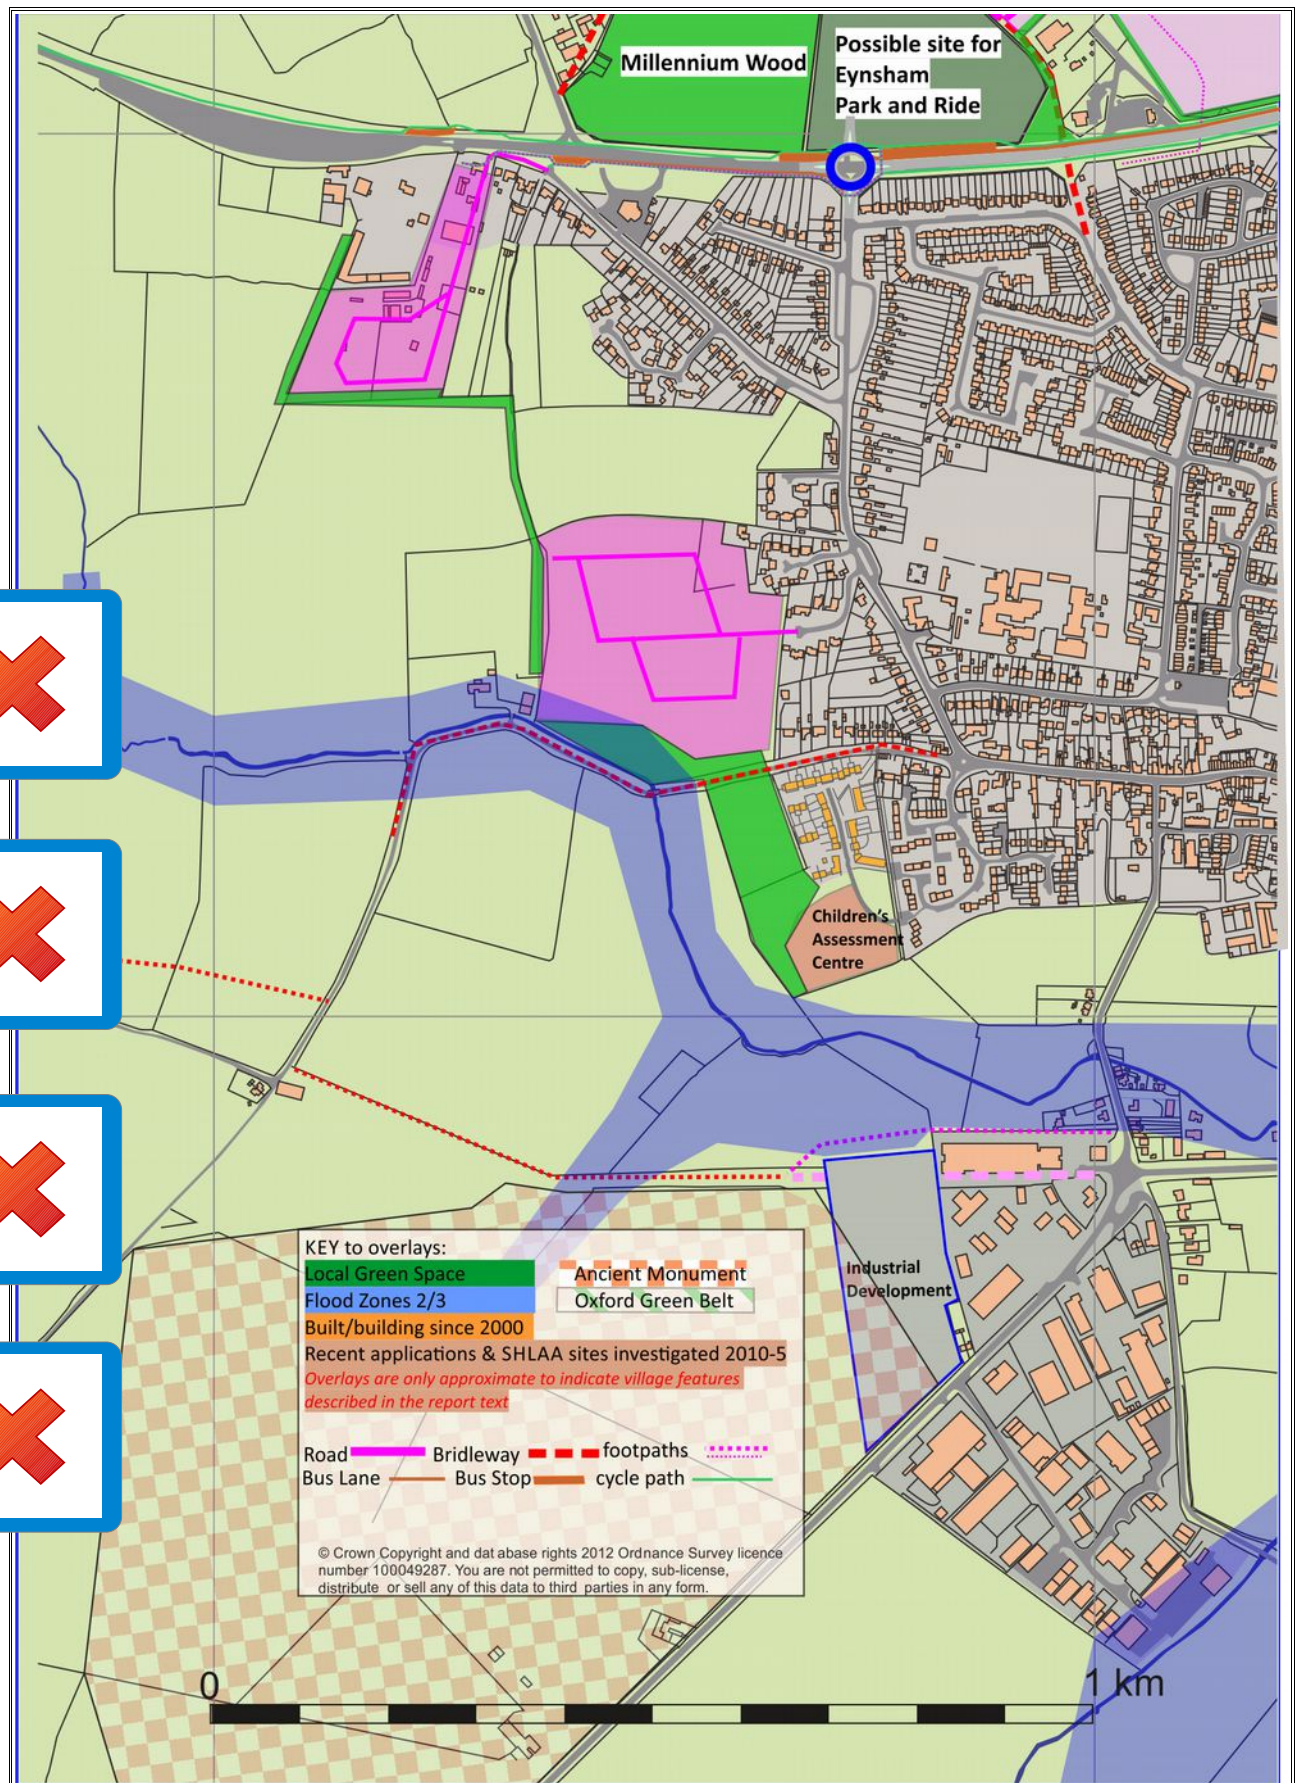

Too small to fund a new Primary School

Unlikely\* to meet our allocation of new homes

Would prevent any future joined-up development

\*It would meet our current requirement of 250 but that number has been rejected by the inspector reviewing the WODC Local Plan and we expect the new figure to be nearer 400
