A40 Road Surveys

Dear Resident

I am Oxfordshire County Council's Project Sponsor for the A40 Eynsham Park & Ride and Bus Lane project, and we are about to undertake further investigative surveys along the A40 from West Eynsham to just west of the Duke's Cut. These will focus on key locations previously identified following our surveys last winter. There are two types of surveys and details of when they will be carried out are explained overleaf.

The first type of survey will further assess the carriageway condition and be carried out at night-time to minimise the impact on traffic but no road closures are required. Any road users on the A40 from 9pm onwards may experience short delays due to temporary traffic lights, and residents should not experience any associated noise from the survey. There will be no excavations from this survey.

The second type of survey will be carried out during the day and is only confined to footway pavements and verges, and will require trial holes to confirm exact locations of existing underground equipment.

I apologise for any inconvenience that these surveys may cause.

Further information is available on the project's website www.oxfordshire.gov.uk/a40, or if you wish to be kept informed of progress including further survey information, please subscribe to our regular electronic bulletin at: <http://bit.ly/OxonFutureProjects>. If there are changes to the above dates, I will update you via your Councillor, Parish Council and through our regular email bulletin.

Phase / Type of survey	Traffic Management required	When does it take place?
Phase 1: Carriageway condition survey via Falling Weight Deflectometer (FWD)	Temporary night-time traffic lights on A40	18 th – 22 nd June 2018 9pm to 6am Start time may delay to 10pm to suit traffic where appropriate
Phase 2: 40 daytime footway / verge trial holes	Pedestrian and Cyclist diversions where required.	25 th June – 20 th July 2018 8am – 6pm

Outside of the above hours, the road, footway and cycleway will operate as normal.

Should you require more information, please do not hesitate to get in touch.

Yours faithfully,

Raymond Cheung
