13 December 2022

Dear Sir/Madam

Proposal	Botley West Solar Farm
Location	1400 hectares across Oxfordshire - the 'Middle Section' is closest to Eynsham.
EPC Response	Strongly object

Eynsham Parish Council strongly objects to development of this magnitude and location in Oxfordshire. Whilst it is understood that energy needs to be created that does not use fossil fuels (Eynsham already has two solar farms), the wholesale development of this scale is tantamount piracy of our natural environment, residential amenity and biodiversity. The proposal as it is currently designed, has such adverse impacts that it will significantly and demonstrably outweigh the benefits and is considered contrary to the National Planning Policy Framework 2021.

Eynsham Parish Council formally request to be a consultee for this proposal.

Yours sincerely

Mrs Katherine Doughty
Clerk to the Council

CC Andrew Thomson, West Oxfordshire District Council
