27 July 2020

Dear Chris

Consultation Response – Community Infrastructure Levy (CIL) Draft Charging Schedule

Eynsham Parish Council consider a zero rate CIL will equate to an unacceptable burden on the existing community and infrastructure due to the planned additional number of residents to be located at the Garden Village and Strategic Development Area within the Parish. There is a potential for the community to be damaged by the financial strain imposed by this policy due to the onus of funding amenities falling on the Parish Council regardless of its existing strategic community aims and objectives at the current level of residents.

The Council therefore object to the proposals as they are not in the best interests for local communities or the future of West Oxfordshire.

Yours sincerely

Mrs Katherine Doughty
Clerk to the Council
